SUMMARY

Seasoned Full Stack Developer with 8+ years of experience in .NET technologies across web and mobile platforms. Proven expertise in the complete software development lifecycle, optimizing backend operations, and delivering high-quality, cross-platform solutions in Agile environments.

TECHNICAL SKILLS

Languages: C#, VB.NET, Python, JavaScript, HTML, CSS, Batch Script

Frameworks & Libraries: .NET Core, ASP.NET MVC, ASP.NET Web API, Cordova, jQuery, jQuery Mobile, Bootstrap

Databases: SQL Server (MSSQL), MySQL, Sybase

Tools & Platforms: Visual Studio, Azure DevOps, Azure Data Factory, Control-M, Crystal Reports, Jasper Reports, Git, SVN

PROFESSIONAL EXPERIENCE

Cognizant

Dec 2021 – Present

Software Engineer

Hyderabad, India

- Led application support for Charles Taylors commercial loss claims, ensuring system stability by resolving 150+ incidents, 50+ VSTS bugs, and 30+ change records within strict SLAs.
- Optimized complex SQL queries throughout the Charles Taylors application, drastically improving overall performance and reducing execution time by over 40%.
- Spearheaded CBL MS2020 migrations by transitioning Windows jobs to Control-M, implementing a zero-defect Database Restore workflow, and upgrading legacy Crystal Reports to Jasper, SQL, and Sybase.

Launch INDIA Private Limited

Apr 2021 – Nov 2021

Software Developer

India

- Provided production support, resolved Sev1 issues, and delivered knowledge transfer sessions to cross-functional teams.

SNK MDR INDIA PRIVATE LTD

Oct 2017 – Mar 2021

Software Engineer

India

- Designed web and mobile interfaces (C#, ASP.NET MVC, Cordova) and optimized backend operations using complex SQL Server procedures.
- Developed 4+ .NET web applications in an Agile environment, collaborating with stakeholders to deliver secure solutions.
- Integrated payment gateways for e-commerce platforms, ensuring seamless transaction processing and high client satisfaction.

TECHNICAL PROJECTS

Charles Taylors Adjusting | .NET Core, Angular, SQL Server

- Executed critical enhancement work for SQL query optimization to drastically reduce execution runtime, and ensured system stability by successfully resolving P1 and P2 production issues.

Allclaims Business Intelligence Tool | VB.Net, Bootstrap, jQuery, SQL Server

- Engineered an insurance claim lifecycle tool, developing complex SQL Server stored procedures and conducting comprehensive module testing.

D-SKY Mobile App & Website | Cordova, Bootstrap, ASP.NET Web API

- Developed a telecom distribution solution supporting offline barcode scanning, commission tracking, and route mapping.

CERTIFICATIONS

API Layer – ASP.Net Web API (Cognizant, 2022) | **Microsoft Certified: Azure AZ-900** (2022) | **Microsoft Certified: SQL and C# .Net** (2012)

EDUCATION

Kakatiya Institute of Technology

Bachelor of Technology (B.Tech)

2017

India
